

VESSEL DETAILS

The ideal vessel for your summer event, the WEOTT I boasts a large ground floor that includes 12 comfortable six-person booths, a bar, and an entertainment area. This open-plan space will be adorned with seasonal flowers, which can be further customised by our team to meet the requirements of your event.

The WEOTT I also features one of the most spacious outdoor decks on the Thames, furnished by our team with deck chairs and other decorative items. This separate outdoor area is the perfect spot to appreciate your marvellous setting. It can also serve as a space for a barbecue or a reception with canapés. In case of inclement weather, this vessel offers a covered outdoor shelter attached to the top deck for those who prefer to remain in the open air.

Inside, the temperature-controlled floors allow the WEOTT I to host events both in the daytime and evening, with large windows providing unparalleled views across the river. We can accommodate formal dinners in the evening, corporate socials during the day, or summer parties as the sun sets along the water.

The stage is truly set for your event.
