

VESSEL DETAILS

Our WEOTT III boasts a spacious, heated two-level interior that will be thoughtfully adorned in our 2025 festive theme and can be further customised to suit your function's requirements.

On the first floor, with its high-spec sound system, you can enjoy entertainment or deliver end-of-year speeches. Transition to the ground floor for dining, where we can comfortably accommodate a delightful festive sit-down meal. For larger groups, we offer flexibility, including the option to add more seating on the first floor or remove lower-floor seating and tables to create a larger standing or reception area.

You and your guests can also socialise and enjoy two outdoor decks while taking in the iconic landmark views of London as you cruise along the Thames. The outdoor spaces are beautifully decorated with fairy lights and lanterns, and we provide blankets to ensure your comfort during the winter period.

Whether you're feeling the river breeze on the outdoor deck or enjoying the festivities indoors, you'll feel at ease no matter which part of the vessel you're on. The stunning view of London can be appreciated across both indoor and outdoor spaces, ensuring comfort in any weather conditions.
